Sweeva

Max 1500Pa and 3-Level Suction Adjustment

Sweeva 2000 sucks up dirt, dust and debris from different types of ground, such as carpets & hard floors. With up to **1500Pa of suction power**, you will get a spotless home that you can see and feel.

There are **3-level suction power** that you can select by the remote.

# Sweeva 2000 - Spotless Clean

Sweeva

Ultra slim, only 70mm height

There are always a lot of dust under furniture that you can not clean easily. If robot vacuum has high profile, there are many areas it can not reach

Sweeva 2000 has an ultra slim body that the height is only 70mm, allows it **working under more furniture** including sofa, bed, cabinets, etc.

# Sweeva 2000 - Spotless Clean

Sweeva

4 clean modes suit different scenarios

# Sweeva 2000 - Spotless Clean

Sweeva

Up to 20mm climbing threshold

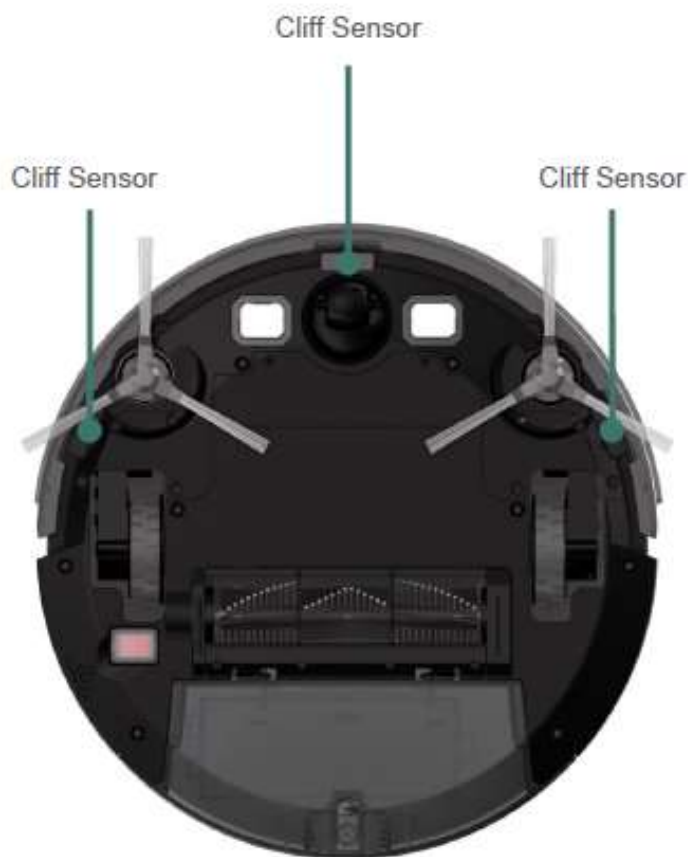

Sweeva will not be stopped by small steps and thick rugs because it can climb up to 20mm height.

# Sweeva 2000 - Worry-Free Clean

Sweeva

## Fall Prevention

Sweeva's **triple anti-drop sensor** will detect stairs to prevent it from falling down stairs.

# Sweeva 2000 - Worry-Free Clean

Sweeva

Washable HEPA Filter prevent pollution air going back to your home.

HEPA filter can filter 95% of pet **allergens and other harmful substances** and any particles with a size of above 0.3 microns.

We choose higher standard washable HEPA filter, so that to **extend the filter efficiency** and life of the filter.
